Never Forget to Water Your Plants Again

Self-Watering Plant Pots for
Busy Homes & Offices

A simple solution for healthy plants

Why Most Plants Die at Home

- We forget to water regularly
- Over-watering damages roots
- No time for daily plant care

Good plants die because of poor watering, not poor care

The Smart Self-Watering Solution

- Built-in water reservoir
- Plant takes water only when needed
- Keeps soil moist for days

One fill = stress-free watering for days

How the Self-Watering Pot Works

1

Fill water in the bottom container

2

Plant absorbs water slowly via roots

3

No over-watering, no dryness

Works naturally — **no electricity, no maintenance**

Choose Your Style

Square Pot

- Best for desks & offices
- Modern & compact look

Round Pot

- Ideal for homes & balconies
- Classic & versatile design

✓ Strong plastic | ✓ Transparent water level | ✓ Easy to clean

Function is the same — choose based on space & style.

Simple & Affordable Pricing
